

Clever Dripper

10 oz clever

20 grams coffee - 300 grams water

- one:** fill kettle with 200 degree water (300 gr/ml)
- two:** preheat filter in clever dripper, discard water
- three:** weigh 20 grams of coffee and *grind slightly courser than for automatic drip/pourover
- four:** place clever dripper on scale, add coffee, level and tare
- five:** start timer, pour 300 grams of water and stir gently just to saturate all the grounds
- six:** brew for a total of 3 minutes, stir gently twice and place clever dripper on cup and let drain

16 oz clever

30 grams coffee - 450 grams water

- one:** fill kettle with 200 degree water (450 gr/ml)
- two:** preheat filter in clever dripper, discard water
- three:** weigh 30 grams of coffee and *grind slightly courser than for automatic drip/pourover
- four:** place clever dripper on scale, add coffee, level and tare
- five:** start timer, pour 450 grams of water and stir gently just to saturate all the grounds
- six:** brew for a total of 4 minutes, stir gently twice and place clever dripper on cup and let drain

*grind setting is in between automatic drip/pourover and french press/cold brew
